

Newron inaugurate their new premises and laboratories

On occasion of the inauguration of their new premises and laboratories, Newron have organized a scientific conference at the University of Milano-Bicocca entitled "Neurosciences: beyond the decade of the brain". Neurosciences, nowadays, offer wide possibilities of advancements which should provide a wealth of scientific, social and industrial opportunities. This specific topic will be the core of the discussion panel which be held just after the Magistral Lecture of the Nobel Prize for Medicine 2000 E. R. Kandel. The Nobel Laureate will make a presentation entitled "From the Sea Snail to the Human Brain: Science Without Frontiers".

The conference will be run at Aula Magna - Bicocca University at 2.45pm.
